

**TENNESSEE GENERAL ASSEMBLY  
FISCAL REVIEW COMMITTEE**

**FISCAL NOTE**

**HB 1269 - SB 1194**

March 8, 2011

**SUMMARY OF BILL:** Increases, from 30 to 50 years, the maximum time a local government economic impact plan may provide for an allocation of property taxes to the industrial development corporation.

**ESTIMATED FISCAL IMPACT:**

**Other Fiscal Impact – Future incremental property tax revenue will be redirected from the general funds of participating local governments to industrial development corporations. This bill is permissive and the number of economic impact plans that will extend their plans is unknown. If two projects utilize this mechanism, there will be a permissive shift in local revenue in an amount exceeding \$40,000 between year 31 and year 50 of applicable projects.**

**Assumptions:**

- This bill does not apply to Davidson County.
- Property tax revenues will be frozen in the year prior to the economic impact plan. Any incremental property tax revenue above this base tax amount generated from a particular area will be allocated to the industrial development corporation.
- Local governments will continue to collect property taxes at the frozen level until the plan's term expires.
- The fiscal impact to local governments resulting from an extension of the time period taxes may be allocated to corporations under an economic impact plan is unclear.
- According to the Comptroller, the average property tax rate is \$4 per every \$100 of assessed value. For every \$1,000,000 assessed value, the taxes generated will be \$40,000. The average property value after development will be \$1,500,000 and will generate \$60,000 in property tax revenue resulting in \$20,000 of foregone revenue to local governments each year.
- It is not known how many economic impact plans will modify their plans under the proposed provision. It is assumed there will be two projects with a frozen assessed value of \$1,000,000 per property each year. The assessed property value after development will be \$1,500,000 per property resulting in foregone revenue to local governments of \$40,000 (\$20,000 x 2) for 20 additional years.
- In project year 51, and each year after, there will be an increase to local government revenues of \$40,000.

**CERTIFICATION:**

The information contained herein is true and correct to the best of my knowledge.

A handwritten signature in blue ink, appearing to read "James W. White". The signature is fluid and cursive, with the first name "James" written in a smaller, more compact script than the last name "White".

James W. White, Executive Director
